International News

[The Fed's four radical moves to save the economy](#)

As policymakers from America's central bank prepare to meet - virtually - this week, they will be looking to see if the extraordinary steps they have taken to confront the world's most severe economic crisis since the Great Depression are working. Click [here](#) to read more.

[How does India, a country of 1.3 billion people, have around 1,000 coronavirus deaths?](#)

Experts predicted that the country could expect millions of coronavirus cases. Doctors warned that India needed to prepare for an onslaught of cases that could cripple the country's ill-equipped health system. Onlookers worried that the virus could spread like wildfire through India's slums, where residents live in cramped quarters and basic sanitation often isn't available. Click [here](#) to read more.
